In modern era, there are quantities of people having started to suggest that our famous campus should be opened to our tourists from different places while others suggest not. This problem has caused a heated discussion in our society. Peoples attitude towards this phenomenon varies widely. Many people maintain that our campus has its regular arrangement for students ' daily study and life. Therefore, we shouldn ' t disturb to some extent. So they think that our campus can ' t be opened to all. However, as every sword has two edges, others argue that opening campus to tourists is feasible. Every famed college has a long history with which every foreigner acquaint themselves. All in all, my personal view is that, as the latter above, our campus should be opened widely. This will make more people know our culture and history. Therefore, if we start to manage it properly, our college will be led to a more harmonic and splendid environment in the near future. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
