students should stay in their own country and study. Other argue that studying in the United States is more beneficial. Discuss the advantages of each situation, and explain which you think is better.

试题分析来源：www.examda.com 一:条件:到美国留学问题/有人认为学生应在国内学习/有些认为赴美留学更有益 二:要求:讨论在国内学习和赴美学习两种情况各自的优点,并说明你认为哪种学习方法更好 三:写作分析:本题对每个考生都是熟题,但每个人都有自己的想法,有些想法不宜明言,例如生活标准问题,依赖奖学金或打工助学问题,移民问题等.文章应从正面谈,围绕学习本身,学习环境和学习费用等问题进行分析.根据题目要求,重点应放在两种情况的有利方面.不利的方面也要谈,但只应在比较的过程中谈,目的是得出结论,为自己的观点服务.既然每位考生都想能到外国学习深造,应该取何种观点不言而喻,文中可明确表达.来源：www.examda.com

Nowadays, many students of the less developed countries go to the United States to pursue their studies. Some people think that these students are lucky to have the chance while others hold that it would be better for them to study in their own countries. The two views are both right to some extent because each situation has its advantages. Students studying in the United States can make use of the modern educational facilities there, such as laboratories, libraries, and teaching aids. They have the access to advanced knowledge of science and technology and they

can learn English more quickly than in their own countries. Besides, their contacts with different cultures and customs can broaden their minds and hence make them have a better understanding of their own countries. Students studying in their home countries have no language barriers in reading books, attending classes, and discussing their lessons with their teachers or fellow students. Consequently, they can achieve better results than in the U.S. Besides, they do not lose contact with the cultures of their home countries and they have fewer difficulties in their life. What is more important to most of the students is that education at home is less costly and they can concentrate on their study instead of doing part-time jobs to support their study. My view is that the two situations have both advantages and disadvantages. To minimize the losses and maximize the gains, we should first of all make a sound decision on the optimum time of departure. It is better to learn the basics of our subjects and achieve a certain degree of English proficiency in our home countries because it saves both time and money. After this stage, it is better for us to go to the United States and pursue our study there. The life in the U.S. may be busier and sometimes hard, but it is a worthwhile sacrifice for the most important consideration--academic achievements.
