often need to make substantial investments in new plants, staff, equipment, and the like in order to perform work subcontracted to them. if, there- after, their subcontracts are for some reason (35) reduced, such firms can face potentially crippling fixed expenses. the world of corporate purchasing can be frustrating for small entrepreneurs who get requests for elaborate formal estimates and bids. both consume valuable time and resources, and a (40) small company's efforts must soon result in orders, or both the morale and the financial health of the business will suffer. a second risk is that white-owned companies may seek to cash in on the increasing apportion- (45) ments through formation of joint ventures with minority-owned concerns. of course, in many instances there are legitimate reasons for joint ventures. clearly, white and minority enterprises can team up to acquire business that neither could (50) acquire alone. but civil rights groups and minority business owners have complained to congress about minorities being set up as "fronts" with white back- ing, rather than being accepted as full partners in legitimate joint ventures. (55) third, a minority enterprise that secures the business of one large corporate customer often run the danger of becoming--and remaining--dependent. even in the best of circumstances, fierce compe- tition from larger, more established companies (60) makes it difficult for small concerns to broaden their customer bases: when such firms have nearly guaranteed orders from a single corporate bene- factor, they may truly have to struggle against complacency arising from their current success.1. the primary purpose of the passage is to (a) present a commonplace idea and its
