You know, the terrible infectious disease attacked our country in this year. Thousands of people died in this tragedy. However, such devil has been successfully controlled and demolished by Chinese people. This disease was first originated from Guangdong Province and then spread to Beijing, HongKong and lots of other cities. Fortunately, the central government soon realized its ponderance and quickly take many effective measures to prevent its prevalence. Firstly, the detailed daily reports about illness in different cities were required and any mendacity will be punished severally. Secondly, some specific hospitals had been isolated for the treatment of this kind patients in order to reduce the cross infection. Thirdly, many extreme methods had been taken so that the infection could be reduced, including sterilizing all the vehicles everyday, prohibiting spitting on the public, checking guests ' body temperatures in public places. Any people who had the close contact with sars patients, even with a doubtful case, must be isolated for some time until he or she could be proved not being affected. Though many measures seemed too severely, they was supported by all the Chinese people. We all draw together to fight with sars and then get the last

success. It also proves that china is a great nation, with greatest people in the world.SARS对旅游的影响。 Well, I think the SARS affects the tourism most. For people usually were affected in public places, most of them fear to go outside, especially in impacted areas. It is undoubtedly a great stroke to the tourism.SARS给人们的启示. Every coin has two sides. The Sars gives us no more than the loss. Both government and individuals could attain useful illuminations from this tragedy. Firstly, our unhealthy life styles should be changed. Secondly, government should allocate more funds on public medical treatment system , especially in those undeveloped districts. In addition, the country wide effective illness watching system is required. To some extend, I think a tragedy can help us find and solve more problems once neglected.SARS对你的影响Well, I think maybe the greatest influence for me is the postponement of IELTS test. I had to continue my exam after 2 or 3 months. My schedule had been changed totally. 100Test 下载频道开通 , 各类考试题目直接下载。 详细请访问 www.100test.com
