I dont know, maybe this just happened to me, but anyway, be prepared is better. the topic is normal. such as, where are you from? describe the city you are living in. what do you think attracts you most in this city? how about the seasons? would you like to move to another city? etc. then the second part was :talk about one of your favorite dress or accessories, such as jewel. I talked about my Qi Pao, its a suitable topic for girls, isnt it? :) then the third part: we talked about fashion. and how differently the young kids and young adults treat fashion. also the different attitudes between men and women when they face fashion. thats all. good luck! 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
