Task2   PDF

What disadvantages will people meet if they cannot use computers? What should our government do? Computer plays a very important role in peoples work and life. We cannot imagine what our world would be like without computer. With the popularization of computer knowledge, more and more people can use computer. But there are still others who are not familiar with it. From my point of view, I think they will confront a lot of trouble and difficulties. Firstly, most machines and equipment are controlled by computer nowadays, for example, automobile industry, manufacturing, power station and even airplanes, which can improve the efficiency of our work. If a person cannot use computer, he will have difficulty in operating machines. It is hard to imagine that a pilot can fly an airplane without intimate knowledge of computer. Without knowing computer knowledge, people will not fit in with the rhythm of our society. Secondly, people can acquire rich information on computer through Internet, is abundant in valuable information. We can get a lot of information about world events, arts, movies and the latest development of science and technology. If a person cannot use computer, you will be out of fashion and lag far behind the others. Finally, computer plays a very important role in education. For instance, students have to revise their thesis when

they are fulfilling their thesis. Without a computer, the revision work will be very tedious. In addition, students can study some long-distance courses on computer through Internet, which can enlarge their knowledge. Taking into account of the disadvantages people will meet, I think the government should do something to popularize computer knowledge. Firstly, the government and the authorities concerned should popularize computer knowledge in primary schools and secondary schools. Secondly, the society and the communities should organize some training courses to the people who cannot use computer. To sum up, in the rapidly developing society, if people cannot use computer, they will meet many difficulties in their work and life. (316 words) 2

7 G Some people say that the teachers and schools should tell the children what is right and wrong since they are very young, while some other people say that it is the responsibility of their parents. Please state your position in connection with your own experience. With the acceleration of people's living rhythm, people in the current society engage themselves fully in their work, sparing little time to spend with their children. In order to render a good care and education to their children, more and more parents send their children to the schools which provide board and lodging to the students. They think that it is the responsibility of schools and teacher to take good care of their children and give them good education. From my point of view, I think both schools and parents should shoulder the responsibility of children's education. There is an old proverb going like this, " Like

father like son", which means that parents' acts are most influential to their children. Parents spend most time with their children every day. Children will imitate whatsoever their parents do. Sitting in front of TV, parents can educate their children through the programs on TV. playing games outdoors, parents can teach their children what they should do and what should not. telling stories to their children, parents can teach them moral lessons from story book and let them know how to behave themselves. Parents are the first teachers of children.However, teachers and schools also should be responsible for children's education. Children go to school every day. They have to learn knowledge and communicate with their teachers and students in school. In the children's eyes, teachers are the authorities whose words and behaviors are the models of children. Teachers can tell students how to distinguish right from wrong, which is quite beneficial to students' development.In conclusion, children's education is not an easy thing. Only when schools and families combine together, can children get good education and enjoy a happy life.(287 words totally) 3

6 A Should old man live with young people together, or should they live in the clubs for old men? Please discuss.With the development of society, we have stepped into an old-man world. Many countries and governments are much concerned about the situation confronting us, especially how old men can live a happy life. Under this circumstance, many old-man clubs bamboo up with the view to providing old men a better place to settle down. In my opinion, I

think this is a good practice to solve old-man problem.Firstly, many young people are quite busy now. They devote themselves wholly to their work and life, so that they cannot spare enough time to stay with their parents. Old-man clubs can offer bounteous food and entertainment facilities to the old people, rendering them a happy life there. In the old-man clubs, they can also make some new companions and friends and establish good relation with them.Secondly, with the acceleration of peoples living tempo, many young people are facing heavy pressure from the society, their work and families. If they live together with their parents, they will shoulder the responsibility to care for them and their pressure will become heavier and heavier. Old-man club relieves the heavy burden of them and makes them concentrate on their work fully. Finally, old-man club can also give careful medical to the old people. If old men live with their family, they are not ensured to be sent to the hospital immediately after they get ill. In the old-man clubs, they can get good medical care and recover soon.However, everything has double folds. Sometimes, old people feel very lonely because they often think of their daughters, sons and grandchildren. They prefer family atmosphere.To sum up, I think the appearance of old-man clubs is a good thing for old people. It provides the old people with a better environment to live. But old-man clubs are not a paradise definitely, which is a compromise to family intimation. (313 words totally) --------------   :   100test   .
