You must base your composition on the following instructions (given in Chinese): 有些人认为机会是极少的，另一些人则认为人人都有某种机会。你的看法如何？写出你的观点，说明你的理由并举例。在你的文章结尾处不要忘记写出你的结论。 My View on Opportunity 范文：Different people have different views on opportunity. It is held that there are few opportunities. But it is also held that there re opportunities everywhere. Those who hold the first opinion think that there are too many people and so there is always an intense competition for limited opportunities. In contrast, those who hold the second view think that if one is not prepared, he can hardly have any opportunities. however, if one is prepared, he can have a lot of opportunities. As to me, I agree with the latter opinion. Admittedly, there is really an intense competition for limited opportunities, but this is not to say that one cant create opportunities himself. In most cases opportunities are created by people themselves. For example, many people lost their jobs in recent years. Some people wait for opportunities in vain. However, others create opportunities themselves and get self-employed. Eventually they become employers themselves. Therefore, to some extent, one can take his destiny into his own hands. 100Test 下载频道开通，各类考试题
