synyan(孤单一吻) 仅供参考/写的不好请多包涵Version  
95Discuss the advantages and disadvantages of unisexual

schools.=====A lot of schools in some countries are unisexual schools nowadays despite of the fact that many people have argued the appropriateness of the existence of such schools. We know human beings are social creatures. They are social because men and women take part in a common party named society. If teenagers were divided into two groups at the stage of their primary school period, they would probably lose a sensitivity of the normal society. The primary problem faced by unisexual school students is that they would have difficulties in communicating with others, especially with people of opposite sex. They are likely to have trouble in living alone after they join the working force due to many unisexual school students regulations. Another major problem caused by unisexual education is that it would affect setting up families, the basic cells of modern society. We can imagine ( THE SITUATION THAT ) a shy boy who seldom has opportunities to talk with girls facing a lovely girl ( but does not know ) NOT KNOWING how to express his affection. Hes probably going to fail in winning ( over ) the girls

favor. Everybody has his or her own developing characteristics during the growth. The puberty is an essential stage in one's life. If male students and female students can have proper communication in their growing stages of lives, they ( do ) not only mutually make up for their deficiency by learning from the others' strong points, but also have progress in their studies. On the other hand, there are also advantages. Take women-only-schools as an example, the school management systems are more succinct as all the students are ( females ) FEMALE and the relationship among them is very pure. They can concentrate on studies much better. What's more, some schools additionally ( build ) OPEN certain curriculums such as flower arrangement, physique and female defending techniques for the female students to ( take part in ) ATTEND. These activities would ( no doubt ) DOUBTLESS help the students in developing their personal interests and gaining practical knowledge. ( IN ) Comparing advantages with disadvantages of unisexual schools, I believe most people would tend to choose normal coeducation schools with both genders because the disadvantages are far outweigh the advantages. ----- 来源:【100test社区】. 100Test 下载频道开通, 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
