People attend college or university for many different reasons (for example, new experiences, career preparation, increased knowledge). Why do you think people attend college or university? Use specific reasons and examples to support your answer. People attend colleges or universities for a lot of different reasons. I believe that the three most common reasons are to prepare for a career, to have new experiences, and to increase their knowledge of themselves and the world around them. Career preparation is becoming more and more important to young people. For many, this is the primary reason to go to college, They know that the job market is competitive. At college, they can learn new skill for careers with a lot of opportunities. This means careers, such as information technology, that are expected to need a large workforce in the coming years. Also, students go to colleges and universities to have new experiences. This often means having the opportunity to meet people different from those in their hometowns. For most students, going to college is the first time they 've been away from home by themselves. In additions, this is the first time they 've had to make decisions on their own. Making these decisions increases their knowledge of themselves. Besides looking for self-knowledge, people also attend a university or college to expand their knowledge

in subjects they find interesting. For many, this will be their last chance for a long time to learn about something that doesn't relate to their career. I would recommend that people not be so focused on a career. They should go to college to have new experiences and learn about themselves and the world they live in. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
