I didnt know that it was possible to get a 0.5 grade over-all. But thats whats written in the TRF I received... I would just like to thank everyone in this forum for helping me achieve my score on my first attempt. To those who will be taking IELTS soon, my advice is just to practice, practice, practice! Time yourself. Also, there are many free sites shared by many in this forum and all you have to do is download. They are more than enough! I practiced for a month but not as much as I wanted to because Im working full time. So I guess the minimum time to review and still get a reasonable score is 1 month. Obviously, my weakest was the writing part. I just hate writing essays! So I figured to share with you what I could remember so far. Task 1 asked to interpret a table on a survey regarding theaters. Task 2 wanted to know my views on the impact of computers on social issues. I had a hard time interpreting the table because the figures given were a bit tricky! Thanks again everyone for helping me make a step closer to my dream. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
