

ASP.NET与数据库相关技巧 PDF转换可能丢失图片或格式，
建议阅读原文

https://www.100test.com/kao_ti2020/204/2021_2022_ASPNET_E4_B8_8E_c98_204263.htm 计算机等级考试训练软件《百宝箱》

一、取得数据表 i 行 j 列的值 //建立并打开数据库连接

```
OleDbConnection conn=new OleDbConnection().
```

```
conn.ConnectionString=strConnectionString.//strConnectionString
```

```
为数据库连接字符串 conn.Open(). string sql="0select * from
```

```
NewsClass order by ClassId desc". string x. DataSet ds=new
```

```
DataSet(). OleDbDataAdapter da=new
```

```
OleDbDataAdapter(sql,conn). da.Fill(ds,"NewsTable"). DataTable
```

```
dt=ds.Tables["NewsTable"]. x=dt.Rows[i][1].ToString()//数据表i
```

```
行j列的值 conn.close(). 二、将数据读入DropDownList ( 1
```

```
) DropDownList中添加数据 //建立并打开数据库连接
```

```
OleDbConnection conn=new OleDbConnection().
```

```
conn.ConnectionString=strConnectionString.//strConnectionString
```

```
为数据库连接字符串 conn.Open(). string sql="0select * from
```

```
NewsClass order by ClassId desc". //建立数据集 DataSet ds=new
```

```
DataSet(). OleDbDataAdapter da=new
```

```
OleDbDataAdapter(sql,conn). da.Fill(ds,"NewsTable").
```

```
this.DropDownList1.DataSource=ds.
```

```
this.DropDownList1.DataTextField = "ClassName".//Text值
```

```
this.DropDownList1.DataValueField = "ClassID".//Value值
```

```
this.DropDownList1.DataBind(). conn.Close(). ( 2 ) 选
```

```
中DropDownList的某项
```

```
this.DropDownList1.Items.FindByValue(dr["ClassID"].ToString()).
```

Trim()).Selected=true.//dr为DataRow 三、分类编码检索出相应的分类名称并在DataGrid中显示 (1) .ASPX中的代码

```
( ClassID为分类编码 ) Text="DataItem.ClassID")) %>> ( 2 ) C#代码/// /// "分类"列根据数字返回文字 /// /// /// public string GetClassName(int ClassID) { OleDbConnection conn=new OleDbConnection(). conn.ConnectionString=strConnectionString. conn.Open(). string sql="0select * from NewsClass where ClassID=" ClassID. DataSet ds=new DataSet(). OleDbDataAdapter da=new OleDbDataAdapter(sql,conn). da.Fill(ds,"ClassTable"). DataTable dt=ds.Tables["ClassTable"]. string strClassName=dt.Rows[0]["ClassName"].ToString(). conn.Close(). return strClassName.//返回 ClassID对应的ClassName } 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
