7. 通过Agent申请的学生需要将Agent的信息提供在956表格上，如果隐瞒不报，将受到DIMIA的特别调查而耽误申请速度。

Adjustments to processing arrangements for Peoples

Republic of China (PRC) passport holders in the PRC who lodge their application from 3 February 2003. All student applications by PRC passport holders in the PRC will continue to be lodged through Adelaide Offshore Processing Centre (OPC). Students should lodge applications at least 16 weeks prior to course commencement. All schools (subclass 571) sector applications will be forwarded to Beijing for finalisation after initial registration and file creation by Adelaide OPC. All other sectors (subclass 570 and subclasses 572-576) will be fully processed by Adelaide OPC except those cases that require additional scrutiny and are passed to Beijing for finalisation. Applicants/agents should expect to receive acknowledgment letters, requests for further information and decision letters directly from Adelaide OPC in relation to all sectors other than the Schools Sector (subclass 571). Education Providers should continue to direct all electronic confirmations of enrolment (eCoEs) to Beijing until further notice. Preliminary assessment (PVA) letters will advise applicants for subclasses 570 and 572-575 which office they must send the hard copy certificate of the eCoE to. In the Schools Sector (subclass 571) both eCoEs and hard copy certificates will be required by Beijing for processing. Where applicants use agents they should be declared on the 956 form attached to the back of the student application form 157A. DIMIA analysis has assessed that where an agent is not declared the risk level is higher. Where it is suspected that an agent has been used but not declared, additional scrutiny of such applications may result in processing delays. Any information requests about application

procedures should be directed to Adelaide OPC. Case progress requests for Schools Sector subclass 571 should be directed to Beijing, requests in relation to all other sectors should be directed to Adelaide OPC. All applications received prior to 3 February 2003 will be finalised by Beijing. In all cases, Beijing will continue to evidence visa labels in passports. Passports should not be sent to Beijing until requested. Providers are reminded that letters of offer must contain the following information: provider name and CRICOS code course name and CRICOS code expected start and end dates course costs student name and date of birth nbsp ; 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
