

新移民在多伦多找JAVA工作的心得 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/212/2021_2022__E6_96_B0_E7_A7_BB_E6_B0_91_E5_c107_212015.htm New Immigrant, java programmer. 2 year, 2 jobs. 27 resume sent and 5 interviews. Maybe JUST lucky. Hope to help others if possible. Good luck. (1st job 2001, 2nd job 2002: all in bad time.)// from 1 ~ 3 comman sense.1. I asked myself what I want to do and what I can do. Then I will never touch the job I dont want or I dont have to do.2. Of course a killer resume is the most important thing for you to find a job. I think you all know or are able to know how to write it.3. I only send resume to the companies I like or to the agents with the jobs I like. Then I will do a lot of researches on the jobs, change my resume and write a really really really really really personalized cover letter. (this is the thing you really need to spend some time on it, believe me.)// from here, MAY ONLY WORK ON ME. // But the main point is that:// "You gotta relax. Then you will see how good you // can be."4. I never wear suit for interview, for big company I will choose shirt with collar, and for small company I will just wear whatever I want, Jeans, T-shirt, but not so wierd. Why, make the interviewer fill easy. Because most of the people "I MET" are not so serious about what you look like. (What the hell r they? I am only a java programmer. What do you want me to be?)5. This maybe the most advantage of me - I CAN speak english. Whats that mean. That means I am not afraid to talk in English. When I talk with interviewers I talk with them just SAME AS I am talking with my friends. In the interview, I

have tried talk about women, beautiful women. Try to find out what kind of people your interviewers are. Relax, dont let them find out that you r some hungry for the job.6. For tech. questions, I dont have a lot to say. I never cheat, I will just tell them "I dont known." But dont give up yet. I will go on talk about the thing I dont know. Let them explain. Then you will have chance to show them you still good. nbsp ; 出国留学移民教育考试出国,留学,移民,澳洲,澳大利亚,加拿大,英国,美国,法国,日本,新西兰 New Immigrant, java programmer. 2 year, 2 jobs. 27 resume sent and 5 interviews.
