凳子上果然很凉，急忙去了趟WC。和老乡座在一起一点都不紧张，但他们好象正好相反。10号先亮了，然后是11号，9，12，13，15，14，16。17也亮了，但他在最后我一直认为没人。自己想除了10号都不错，反正不会很快叫到我等着看吧。8：22开始叫人，***10号，我连忙和老乡说，这个人凶多吉少，下午证实确实没过。我老乡告诉我17号是签证天堂，他希望被叫到那里。不到2分钟十元到11号（其实不是这个十），我和老乡开玩笑说我还叫一百元呢！大家都乐了，紧张的气氛减压了不少。不到1分钟，我就听到我自己的名字到17号，马上跑路。我感到一片羡慕的目光。窍门，问到may I come in? 学习计划Academic StatementThe language school: Leicester Square
School Of English (LSSE is accredited by the British Council and is a
member of ARELS).Course title: Standard General English (15 hours
per week).The university: University of Portsmouth.Major: BSC.
Computing, Level3 Entry (Dept of computer science).Study plan: 35
weeks language course and one-year undergraduate course.Funds
for study abroad: RMB 434.000 YUANTuition fees: 10.190
PoundsLiving costs: 10.000 PoundsTotal of cost: 20.190 PoundsThe
total financial guaranty for my study in UK: RMB 268.000
YUANEnglish course structure:LSSE general English course consists
of communication (AM 9:0010:50) and the rest covers grammar,
listening, reading and writing (AM 10:0012:00). In afternoon, I will
exercise my writing, reading and to talk something of the current
affairs of the UK. These reviews will build my fluency and increase
my conversation skills.Reasons for choosing the 35 weeks language
course:With good all-round courses, I will study more and more
English knowledge, skills and improve my conversation and
pronunciation. It is the most important purpose to handle complex
English so well and obtaining IELTS Band 7.0.Undergraduate course
structure:The program consists of a project stage (may be 20 or 40
point engineering project, or a study project) and taught stage
(option units). Option units consist of Advanced Networks,
Advanced Software Engineering, Artificial Intelligence, Computer
Animation and Virtual Reality, Data Warehousing, E-commerce
Technology, Information Systems Management and Intelligence

Systems. Each module consists of lectures, assignment, dissertation and exams. I will take both the taught and project stages and to perform sufficiently well in the project, option units and be eligible for the award of BSC. Reasons for choosing this course: Firstly, It is not accidental that I choose this course. Due to I have studied some computer applications at college. Direct entry to final year, I will consolidate my skills, having decided what part of the computing profession interests me the most. I can concentrate my study on specialized areas, studying advanced units. There are no this kind of courses in china at present. Secondly, University of Portsmouth has well-staffed and well-equipped institute, with long history and enjoying a worldwide fame moreover has a large and successful computer science Department and comfortable environment in which to live and study. All overseas students enjoy the highest quality of teaching and extremely flexible learning opportunities. Entrance to University of Portsmouth is my long-cherished desire to pursue ongoing interest, research and cutting-edge expertise. Thirdly, Computing is a complex profession with many skill areas. The computing course at Portsmouth is, however, extremely flexible, allowing students to construct their own study route according to their aspirations and interests. So, I am confident that by this program in University of Portsmouth, I would learn more practical IT and managing skills and gain a range of other skills. All of these can come together to make a varied and interesting study path geared specifically to the demands of today ' s fast moving computer market. Job plan aft 100Test 下载频道开通 , 各类考试题目直接
