文章解析（1） In the past five years, there have been changes in people ' s diet. Grain, as the main food of most Chinese, is now playing a less important role in people ' s diet, while the proportion of some high-energy food, such as milk, meat has increased. What caused these changes? I think there are two reasons.

First, people now have more money. The price of meat and milk is much higher than that of grain. In the old days, people couldn't afford them. Now they have enough money to buy meat and milk. Second, people nowadays pay more attention to the structure of their diet. They are seeking the most reasonable diet structure which will do good to their health. In short, there have been changes in people's diet in the past five years and there will be changes in the future, too. (2) In the past five years people's diet had changed quite a lot. The grain was no longer the main food of people's diet. It decreased from 49% to 45%. And the possession of the fruit and vegetables was declined, either. But, however, the necessity of the milk and meat was increased with no doubt. Such case owed to two reasons. On the one hand, the level of people's lives had greatly advanced. More and more people could afford the expensive food. On the other hand, modern science had been developed with high speed. Then people began to be aware of choosing more useful food. With the developing of the society, people's diet will change more greatly. (3) Diet is very important in people's life. In past five, there is a big change in all kinds of food. For example, Grain. In 1986 it takes 40 percent in Diet in after four years. It decrease 4 per cent in diet. Milk increase 3 per cent in last five years. It grows to 13 per cent in Diet. Meat in 1986-1989, it kept to grow up. An in 1990, it down 2 per cent. Fruit and vegetables is decrease in last five years. Why it will have these changes. It is two side, the first is people began to see that Milk. Meat. Fruit and Vegetable are very importance in people's bodies, the other is people's life is quite good. They have enough

money to buy Meat, Milk, Etc. They know how to build them bodies. In last five years. Big changes in people ' s Diet. It call us more and more people know. Share them Diet and build them bodies.[1] [2] [3] [4] [5] [6] 下一页 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
