九、压力 Directions: For this part you are allowed 30 minutes to write a composition on the topic Is Stress a Bad Thing? You should write at least 120 words and base your composition on the outline below: 1、有人害怕压力 2、有人认为压力并不是坏事 3、我的看法 In the past few years, quite a number of men and women have chosen to do something less competitive. They are afraid that the stress and strains of work will rob them of joy and happiness and do them harm both physically and mentally. In fact, however, stress isn't the bad thing it is often supposed to be. Above all, unless it gets out of control, a certain amount of stress is vital to provide motivation and challenge, and to give purpose and significance to an otherwise meaningless, idle life. Furthermore, people under stress tend to express their full range of potential and to actualize their own personal worth the very aim of a human life. Stress is a natural part of everyday life and there is no way to avoid it. What we can do is to develop our adaptive abilities to deal with it rather than to escape from it.

十、就业 Directions: For this part you are allowed 30 minutes to write a composition on the topic Jobs for Graduates. You should write at least 120 words and base your composition on the outline below: 1、大学生难找工作 2、原因很多 3、解决的办法 Job hunting has always been a headache for college students. Though many graduates are employed right after

graduation, some are not. Most serious of all, some still have no idea where to go working even a long time after graduation. The reasons for this phenomenon are various. On the one hand, a few years ago colleges and universities enrolled so many students in popular majors, such as economy, finance and so on that the number of graduates was greater than the need in the market. On the other hand, most graduates would rather stay in large cities without suitable job to do than go to the country. I reckon this problem can be solved if both colleges and students take measures. First, they should research the market and develop special skills to suit its need. Second, students' attitude towards employment should be changed. They should go to small cities and country. There they can also give full play to their professional knowledge. In a word, if we pay much attention, the situation can be improved.
