1Some people like to hold the opinion that A is superior to B in many ways. Others however, contradict A. Personally, I would prefer (表明自己的观点：赞同 A) because I think A has more advantages. It can be given a concrete example:(举例说明原因之一).Another reason why I advocate the attitude of A is that (赞同A的原因之一). Take the case of thing that (举例说明原因之二)Last but not the least, one very strong argument in favor of A is that (举例说明赞同A的原因之一三). This demonstrates the undeniable fact that (表明A的优势)Of courses, choosing B also has advantages to extent. For instance, (列出B的1-2个优势)But if all factors are contemplated, it is no difficult to conclude that the advantages of A carry more weight than those of B. 板2No doubt, I choose A in no hesitation, because there are too many benefits about A that outnumber its disadvantages and I feel no inclination not to choose it. But B, on the other hand, has advantages

no more than its disadvantages. But any argument remains groundless unless we manage to present plenty of evidence to support it. The most important benefit of A is that (A 能带来和第一个好处). A case in point is that (举例说明A的第一个好处). To achieve the same effect, B will (B 带来的坏处, 比如: 浪费很多东西, 如时间, 金钱等). Another benefit of A, which B can hardly achieve, is that (A的第二个好处). Let us take an example to illustrate this point: (举例说明第二个好处). Although B also has its seemingly profound advantages, it can only be achieved conditionally because (B的局限性, 即这种局限性是很难改进的). After understanding the above reasoning, it is quite safe now to say: to choose A is nothing but a wise action. 模版字数: 150适用于: A并没有很多优势, 但在某12个方面B有局限性, 或效率没有A高。 模板3

A and B are two totally different ideas that have caused heated debate over long period of time. Anyway, I agree with the idea of A. However, it is unfair to say which is better than the other if we do not see both sides of the story in the following paragraphs. Some people believe B because (人们支持B的第一个原因). These people point out the fact that (进一步阐述). They also argue that (人们相信B的第二个原因). However, other people stand on a very different ground, they hold the view that (支持A的第一个原因). It is their firm belief that (进一步阐述). An example can give the details of this argument: (举例说明第一个原因). In addition, (支持A的第二个原因). In a word, A is too tempting not to be chosen. A, as shown above, has not only (选择A的第一个好处), but also (选择A的第二个好处). 模版字数: 143适用于

板 2 (反对)There ' s no need for me to put any emphasis on what the advantages of XXX are. This can be illustrated by a fact that(举例说明). Moreover, one of the notorious disadvantages of XXX is that (XXX 的缺点之二) . The modern example of this is(举例说明 这个缺点). The second thing that must be taken into consideration when choosing A or B is that (支持B的第二个原因). 形式三: 选择观点式模板 1 How to do Z? Whether the traditional methods such as A, B and so on or the modern methods for example C and D have their advantages. Which you prefer depends on your own experience, life style and emotional concern. I prefer C most in my point of view. As I see it, there are mainly advantages of C as follows: This can trace back to my childhood. Once with curiosity, I (喜欢C的第一个原因) Yet for another reason is that (喜欢C的第二个原因). I can quote a common example (举一个例子支持第二个原因). Then why I do not like others? For example, why I do not favor A? Because I have had a bad experience with it. (举例说明). So even when anyone mentions it, I will catch a feeling of fear. There are still many other reasons that can

account to my fondness for C, but the obvious ones have been presented as above. C is unquestionably my first choice in doing Z, though I might be opposed by others.网友倾情奉献：TOEFL作文模版 914前夜用了一些时间将几个比较好的模版做了综合，没有想到还真用上了，因此在这里给大家分享：In this modern society, people always confront the dilemma of choosing whether AAA or BBB. This problem is a prevalent topic undergoing serious debate in that it affects everybody in his or her daily work. Personally, I would like to vote for AAA for three definite reasons. The main reason for my propensity for AAA is that原因一. And I can think of no better illustration of the idea than the obvious fact that事例一. The above is only part of the important aspects, and another one with equal significance with respect to choosing between the two lies in the development of the proposition that原因二. This demonstrates the undeniable fact that事例二. What is also worth noticing fact is that原因三. It is undeniable that BBB has its own merits. The most extreme manifestation of the merits is the fact that某一优点. Even though, however, we have no complete evidence to suggest that BBB is always better than AAA. From what has been discussed above, we may safely arrive at the conclusion that advantages of AAA outweigh any benefit we can get from BBB and choosing AAA is a rather wise decision.
