Give possible reasons and your recommendations. There is much discussion nowadays as to whether or not the relationship between family members is as close as before. Diverse contributing factors can be identified. In the following, I would like to present my point of view. Great changes have taken place in family life along with the development of society. One of them is that the once-extended family tends to become smaller and smaller. Many children have to leave their parents at an early age to study or work elsewhere. As time passes, children become emotionally estranged from their parents. Compared with the past, social competition is becoming increasingly fierce. People are urged to concentrate their efforts upon work, so that they can achieve success, or at least a good standard of living. As a result, they can't afford to spend their leisure hours with their families. The importance of bonds of kinship is gradually fading from their minds. In addition, the availability of various kinds of recreational facilities also diverts people from enjoying chats with the members of their families. Their free time is mostly occupied by watching TV, surfing the Internet or playing video games. They come to lose interest in communicating with the other members of their families. In view of such alienation within families, I do believe that urgent steps must be taken. For members of families who live

away from one another, regular contact on the phone can bring them the care that they need. Family reunions on holidays or other important occasions can make a difference as well. For those living together, it is a good idea to take some time off work or recreation periods to spend more time with each other. In the final analysis, a close family relationship can surely be maintained as long as we realize the significant role it plays in our lives and attach importance to it. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
