

用代码实现ListView控件的行间隔颜色 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/252/2021_2022__E7_94_A8_E4_BB_A3_E7_A0_81_E5_c97_252616.htm 首先在窗口中添加一个ListView控件，方法：菜单 ->工程 ->部件 ->Microsoft Window Common Control 6.0（后面为版本号）。再添加一个Picture控件，改名为picGreenbar。实现的代码如下：

```
Option Explicit Private Sub Form_Load() Dim i As Integer Dim  
iFontHeight As Long Dim iBarHeight As Integer Dim j As Integer  
Dim itmX As ListItem Dim ColHead As ColumnHeader  
ListView1.ColumnHeaders.Add , , "This is Just a Simple Example"  
ListView1.ColumnHeaders(1).Width = 3000 添加一些实验数据  
For j = 1 To 33 Set itmX = ListView1.ListItems.Add() itmX.Text =  
"This is item number " & CStr(j) Next j Me.ScaleMode =  
VBTwips picGreenbar.ScaleMode = VBTwips  
picGreenbar.BorderStyle = VBBSNone picGreenbar.AutoRedraw =  
True picGreenbar.Visible = False picGreenbar.Font =  
ListView1.Font iFontHeight = picGreenbar.TextHeight("b")  
Screen.TwipsPerPixelY iBarHeight = (iFontHeight * 1)  
picGreenbar.Width = ListView1.Width =====  
picGreenbar.Height = iBarHeight * 2 picGreenbar.ScaleMode =  
VBUser picGreenbar.ScaleHeight = 2 picGreenbar.ScaleWidth = 1  
draw the actual bars picGreenbar.Line (0, 0)-(1, 1), VBWhite, BF  
picGreenbar.Line (0, 1)-(1, 2), RGB(227, 241, 226), BF =====  
ListView1.PictureAlignment = lwTile ListView1.Picture =  
picGreenbar.Image End Sub 100Test 下载频道开通，各类考试题
