Vista 系统下的内存检测工具 问题描述 vista系统有一个自带内存检测工具.当系统认为内存有问题时会自动提醒用户运行该程序进行检测.当然用户也可以随时手动运行该程序,检测机器的内存. 解决方案 1.以管理员帐户登陆系统,打开 "C:\Windows\System32" 文件夹,运行

```
"MdSched.exe"程序screen.width*0.7) {this.resized=true.
```

```
this.width=screen.width*0.7. this.style.cursor=hand. this.alt=Click here to open new window\nCTRL Mouse wheel to zoom in/out.}"
```

```
onclick="if(!this.resized) {return true.} else
```

```
{window.open(this.src).}" alt=""
```

```
src="/microsoft/Files/2007-8/17/950523602.JPG"
```

```
onload="if(this.width>screen.width*0.7) {this.resized=true.
```

```
this.width=screen.width*0.7. this.alt=Click here to open new
```

```
window\nCTRL Mouse wheel to zoom in/out.}" border=0>图1 2、
```

点击推荐运行的"立即重新启动并检查问题",系统会自动重启进入检测界面screen.width*0.7) {this.resized=true.

```
this.width=screen.width*0.7. this.style.cursor=hand. this.alt=Click here to open new window\nCTRL Mouse wheel to zoom in/out.}"
```

```
onclick="if(!this.resized) {return true.} else
```

```
{window.open(this.src).}" alt=""
```

```
src="/microsoft/Files/2007-8/17/950523227.JPG"
```

```
onload="if(this.width>screen.width*0.7) {this.resized=true.
```

```
this.width=screen.width*0.7. this.alt=Click here to open new
```

window\nCTRL Mouse wheel to zoom in/out.}" border=0>图2 3、
在检测过程中可以按"F1"键,设置检测项目,同时可以随时
按"ESC"退出该检测screen.width*0.7) {this.resized=true.

this.width=screen.width*0.7. this.style.cursor=hand. this.alt=Click
here to open new window\nCTRL Mouse wheel to zoom in/out.}"
onclick="if(!this.resized) {return true;} else
{window.open(this.src).}" alt=""

src="/microsoft/Files/2007-8/17/95052777.JPG"

onload="if(this.width>screen.width*0.7) {this.resized=true.

this.width=screen.width*0.7. this.alt=Click here to open new

window\nCTRL Mouse wheel to zoom in/out.}" border=0>图3 4、
检测完成后会自动重新启动计算机,回到操作系统,同时告知检
测结果screen.width*0.7) {this.resized=true.

this.width=screen.width*0.7. this.style.cursor=hand. this.alt=Click
here to open new window\nCTRL Mouse wheel to zoom in/out.}"
onclick="if(!this.resized) {return true;} else

{window.open(this.src).}" alt=""

src="/microsoft/Files/2007-8/17/950528224.JPG"

onload="if(this.width>screen.width*0.7) {this.resized=true.

this.width=screen.width*0.7. this.alt=Click here to open new

window\nCTRL Mouse wheel to zoom in/out.}" border=0>图5 适
