

javamail在j 中调用 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/260/2021_2022_javamail_E5_9C_c104_260843.htm javamail在jsp中调用 一 To: From: Subject:

Message: javamail在jsp中调用 二 import=" javax.mail.*,
javax.mail.internet.*, javax.activation.*, java.util.*" %> JSP meets

JavaMail, what a sweet combo. try{ Properties props = new
Properties(). Session sendMailSession. Store store. Transport

transport. sendMailSession = Session.getInstance(props, null).
props.put("mail.smtp.host", "smtp.jspinsider.com"). Message

newMessage = new MimeMessage(sendMailSession).

newMessage.setFrom(new

InternetAddress(request.getParameter("from"))).

newMessage.setRecipient(Message.RecipientType.TO, new

InternetAddress(request.getParameter("to"))).

newMessage.setSubject(request.getParameter("subject")).

newMessage.setSentDate(new Date()).

newMessage.setText(request.getParameter("text")). transport =

sendMailSession.getTransport("smtp").

transport.send(newMessage). %> Your mail has been sent. }

catch(MessagingException m) { out.println(m.toString()). } %>
