Yet opinions of it vary from person to person. Some people claim that there are many advantages in possessing a car. A car offers a greater degree of comfort and mobility. The owner of a car is no longer forced to rely on public transport, and hence no irritation caused by waiting for buses or taxis. With a car he can go where he likes and when he wants, so that he can enjoy his leisure to the full by making trips to the countryside or seaside on weekends, instead of being confined to his immediate neighborhood. However, others strongly object to the development of private cars. They maintain that as more and more cars are produced and run in the streets, a large volume of poisonous gas will be given off, polluting the atmosphere.

Furthermore, private cars contribute to traffic congestion that makes a great nuisance. So far as I am concerned, I fully believe that the advantages of private cars outweigh their disadvantages. What ' s more, there are at least two effective ways to cope with the demerits. The first way to tackle it is to appeal to the authorities to take drastic measures to produce less poisonous cars. The other policy that is worth adopting is to build up more roads to reduce the traffic jam. In this way we can succeed in dealing with the problem and make full use of private cars. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
