— : educationPARTA PARTB PARTC1)一生中经历的教育阶段there are three stages in our life,such as primary school stage,middle school school and college or university stage.2)中学最重要it is a key stages in our peoples mental development.and our own opinion are formed in the middle school stage.if we fail it,i cant get hifher school.3)小学最重要I think primary school is the most stage.because primary school education help me form a solid foundation,if we fail it,it is impossible to achieve anything in the future.反驳in the primary school stages,many pupil dont realize the importance of sutdying and learning.when they enter middle school,they realize it.it is very easy to catch up.4)关于大学I think through studying in the college or university school,we can relaize how to learn.you know,knowing about how to learn is very important in the future.if you can know how to learn,you can get a better job in the future.5)关于学生把课余时间放在学习上A:I see many students study hard in the spare-time.why do they love studying?I think there are at least three reasons.firstly,country aspect.china populations is very huge.country have to set test system to get abality people.in china,abality people means making lots of money in the future.so,many students are for making lot of money ,they have to choose studying.secondly,parents aspect.nowadays,many parents compare with each other.if own child

go into a famous university, everyone admires him. He feels very proud and very happy. If his own child fails it, they can scold children. Many children study hard due to parents' pressure. I think they don't like studying by themselves. Thirdly, children's aspect. Many children learn about the future's importance. They know if they study hard, they can get a good job in the future.

B: As far as I know, many people get a psychology barrier due to parents' pressure. I think our government should take some measures. Children are children, they like playing, it is a natural law. We should try children play, and it enables them to enjoy childhood's pleasure. Confining them at home for studying is not good.

6) 关于留学

A: More and more people are choosing to study abroad, they go abroad for further education. But they will face much hardship. I think there are at least three problems. Firstly, their families have to spend a lot of money to cover the tuition fees and living expenses. Secondly, they have to learn how to live alone and solve all problems by themselves. Thirdly, the student has to master a language. You know it is very difficult to master a language and they also have to learn foreign customs and foreign culture. However, many students think if they study abroad, they can get a good job. I think it is not very easy to get a better job because they are not familiar with China's fast development.

B: It is true. For example, I have a friend, when he was eighteen, he went to study abroad to achieve his dream of a foreign university. He thought if he came back to China, he could make a lot of money. But when he was twenty-two, he came back to China. He couldn't get a better job because it is very fast about China's development, he can't adapt to China's current

situation. 7)关于大学生不学习现象in the campus,there are more and more students playing overnight.,such as palying cards,and playing video games.they usually sleep in the daytime,I think it is very bad that students sleep in the calssroom in the daytime.I think there are at least three reason to explain the phenomenon.firstly,many students think that if I go to university and I am very easy to get a good job.secondly,many students study hard during the high school stages.they think they should relax during the university stage.thirdly,many students think it is not important to study during the university stage.they think during the college stages,they should learn social relationship.they think if they have a good relationship,they can get a better job.but I think it is very important to know about how to study.if you know about how to study,you can get a better job. 二 : popular sciencePARTA PARTB PARTC1)关于卫星man-made satellite can transmit data to everywhere .you can stay at home and watch cnn from USA.2)关于手机we can use mobilephone,and we can communicate with anybody.we can dial a number,and the other can receive the message.it takes much less time than any other means.3)关于航天we can fly into outer spaces.you know,spacecraft can transport out our astronaut into outer spaces.4)关于和机器人下棋you can see a oldman playing chess with robot.it is not easy to play with chess,because their calculation rate is very high.but I think it doesnt matter whether the oldman can win or not.he is old and probably is retired.robot accompany with him,and he dont feel lonely. 100Test 下载频道开通 , 各类考试题目直接下载。 详细请访问
