People attend college or university for many different reasons (for example, new experiences, career preparation, increased knowledge). Why do you think people attend college or university? Use specific reasons and examples to support your answer. 参考范文：1. People study in college or university for many different reasons. I think the most important reason is to gain more knowledge and learn more skills. Of course, there are also many other reasons that people study in college such as to get more friends, and increase ones self-confidence. 先主后次 These days, most jobs require people who are educated and have good job skills. Therefore, the people who want a good job have to study hard and at least graduate with a high education. Furthermore, as technology advances all over the world, more and more education is required of people. 工作 Some people who study in college or university want to make more friends and increase their interpersonal skills. They enjoy their lives in university or college and tend to socialize a lot. They can meet more people who have the similar interests with themselves. They can go to uni ball after school and make more friends who they trust. 交友 The people who graduate from college seem more confident in our community. These people are more respected by society. Many people want to be respected and to be important by family, friends, their bosses, and others in their lives. They find that most of them

can confidently talk and do their jobs as they are more educated. Therefore, most people want to get the confidence through the university or college study. 自信新颖独特特点 In today's society, people need more knowledge and skills to be adapted. The university and college study is a good way to achieve this. 从大学功能入手 , 总结全文 2. In China, more and more people try their best to attend college or university. What are the reasons that make people long for it? 结合国情 , 体现考生特色, 启示, 从身边入手就有好思路 First of all, in my opinion, the most important reason is to gain competence to live a better life in the future. Competition of our days has become more and more drastic, and even a very simple job or low position will attract hundreds of candidates to apply for it. Only those who have a good education and general knowledge can gain better work. So, we should attend college or university for better competence. 竞争 Second, attending college or university can change our life. For example, to myself, I am a student from countryside. I am one of the few people who can attend college or university. Most of those who have not studied in college or university go to work early in a small factory in a small town or on a farm in their hometown. Just because I have taken higher education, I can get better chances to study or work in the capital of our country where a lot of people want to go to. Why? Good education gives me chances to change my life. 改变生活 The third reason for attending a college is to increase knowledge. Study is a so interesting thing that it makes our life rich and colorful. It expands our eyesight by informing us with lots of new things what we cannot gain from our common life or

experience. On the other hand, by attending college or university, you can learn the knowledge or skill necessary for your future work.

增知识 People attend college or university for various reasons. Some may attend for new experiences, and others may think about other things. What I have mentioned is just very few of them.

谦虚概括, 示思考的全面--forever ending3, 推荐 Mr. Taoxingzhi, the most famous educator in China, once said: the biggest misfortune in one's life is that one does not receive a university education. Needless to say, a university degree often helps a person achieve his goal with more ease. However, do we attend university just in pursuit of a degree? Does a university only provide us nothing beneficial besides a paper-made diploma? As far as I am concerned, we enjoy a university education in the following aspects which attributes us to a university education: Firstly, with the knowledge learned in a university, we will have a deep understanding with our society. It is true that genuine knowledge comes from practice, but it can not be denied that genuine knowledge, tells us how to practise 新颖. A thorough study in a college or university, of course, enables us to realize how the society works and how to cope with certain problems arising from it in a more efficiently, more skillful way. Second, a university education usually make it possible that we acquire a decent job. Because of an accomplishment of a four-year study, it is not difficult for us to find a good job in most cases. How can we imagine that a graduate majoring in astronomy has to be a vendor in the street! Undoubtedly, he/she should sit in his/her laboratory, making a research on aircraft on a computer. Obviously, a university education

assures him/her a decent job. Last, but not the least, 常见却不反感的词 we can help others much better if putting what we learn in a university into use. A university education corrects our values, enhance our skills, and broad our horizons. With those, we are more capable of giving a hand to those who are in need of help than before. “ Knowledge is power ” .When achieving a degree in a university, we can get a better understanding of the society, find a decent job in an easy way, and help others better. 三个简洁的短语总结正文三方面 All of those are due to the knowledge learned in a university. 总括用词灵活，而词汇量未见奇大；逻辑鲜明，层次清晰；为推荐之模板 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
