1. The primary goal of technological advancement should be to increase peoples efficiency so that everyone has more leisure time. 2. Money spent on research is almost always a good investment , even when the results of that research are controversial. 3. Humanity has made little real progress over the past century or so. Technological innovations have taken place , but the overall condition of humanity is no better. War , violence , and poverty are still with us. Technology cannot change the condition of humanity. 4. When research priorities are being set for science , education , or any other area , the most important question to consider is : How many peoples lives will be improved if the results are successful. 5. The function of science is to reassure ; the purpose of arts is to upset. Therein lies the value of each. 6. Technology creates more problems than it solves , and may threaten or damage the quality of life. 7. Most important discoveries or creations are accidental : it is usually while seeking the answer to one question that we come across the answer to another. 100Test 下载频道开通，各类考试题目直接下载。详细请访问
