实践经验哪个更重要？ Topic4、 It has been said, "Not everything that is learned is contained in books." Compare and contrast

knowledge gained from experience with knowledge gained from

books. In your opinion, which source is more important? Why? 【

参考范文】 We gain our knowledge about the world and our life

from two sources: from experience and from books. These two

resources are both important, but which of them is more important?

Knowledge from books forms a very important part of our

knowledge structure. In schools and colleges, we learn knowledge

which is fundamental to our future career. We learn knowledge from

books in order to make our contributions to this society in the

future. A student learns mathematic equations and other scientific

knowledge and become a scientist or engineer. We will be illiterate

and ignorant without learning knowledge from books. Moreover, we

acquire knowledge about life and the world by reading books,

magazines and newspapers. This is also very important as we cannot

experience everything all by ourselves. Therefore books are a very

important source of knowledge. On the other hand, we cant learn

everything from a book. “ Experience is the best teacher ” is an old

clich é , but I agree with it. The most important, and sometimes the

hardest, lessons we learn in life come from our participation in

situations. We learn how to get along with others or how to have

self-respect from our experience, not from books. We cannot learn emotional feelings, such as love and care, through books. they come from our real life experience. Knowledge from experience is also a very important supplement to knowledge from books. Needless to say both learning sources, books and experience, are very important to us. But in my opinion knowledge from experience is more important, because without knowledge from experience, it is impossible to get a real understanding of knowledge from books, and how to apply this knowledge to real world situations. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
