Now he had the capability to leave that planet ___1___ and move out into the universe to those worlds which he has known previously only indirectly. Men have explored parts of ___2___ the moon, put spaceships in orbit around another planet and possibly within the decade will land into another planet and ___3___ explore it. Can we be too bold as to suggest that we may be ___4___ able to colonize other planet within the not too distant ___5___ future? Some have advocated such a procedure as a solution to the population problem. ship the excess people off to the moon. But we must keep in head the billions of dollars we ___6___ might spend in carrying out the project. To maintain the earth ' s population at its present level. we would have to blast off into space 7,500 people every hour of every day of the year. Why are we spending so little money on space ___7___ exploration? Consider the great need for improving many ___8___ aspects of the global environment, one is surely justified in his concern for the money and resources that they are poured ___9___ into the space exploration efforts. But perhaps we should look at both sides of the coin before arriving hasty conclusions. ___10___ 答案：1. had -> has 2. directly -> indirectly 3. into -> onto / on 4. too -> so 5. planet -> planets 6. head -> mind 7. little -> much 8.
