

Cisco3750-12G交换机汇聚配置 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/295/2021_2022_Cisco3750-_c67_295672.htm 第一步：串口登陆到交换机 第二步：分配管理地址

```
Switch # config t Switch ( config - if ) # interface vlan 1
```

```
Switch ( config - vlan-1 ) # ip add 192.168.0.1 255.255.255.192
```

第三步：启动三层，上联到6509

```
Switch ( config - if ) # interface gigablethernet1/0/1 Switch ( config - gig-1 ) no sw Switch ( config - gig-1 ) no shut Switch ( config - gig-1 ) ip add 211.168.169.58 255.255.255.254 Switch ( config - gig-1 ) ip routing Switch ( config - gig-1 ) ip route 0.0.0.0 0.0.0.0 211.168.169.57
```

第四步：启动三层，千兆到文科院

```
Switch ( config - if ) # interface gigablethernet1/0/2 Switch ( config - gig-1 ) no sw Switch ( config - gig-1 ) no shut Switch ( config - gig-1 ) ip add 172.16.31.1 255.255.255.0 Switch ( config - gig-1 ) ip routing
```

第五步：启动三层，千兆到法学院A区配线间

```
Switch ( config - if ) # interface gigablethernet1/0/3 Switch ( config - gig-1 ) no sw Switch ( config - gig-1 ) no shut Switch ( config - gig-1 ) ip add 211.67.84.1 255.255.255.0 Switch ( config - gig-1 ) ip routing
```

第六步：启动三层，千兆到法学院D区配线间

```
Switch ( config - if ) # interface gigablethernet1/0/4 Switch ( config - gig-1 ) no sw Switch ( config - gig-1 ) no shut Switch ( config - gig-1 ) ip add 211.67.82.1 255.255.254.0 Switch ( config - gig-1 ) ip routing
```

第七步：配置secret密码

```
Switch ( config - if ) # enable secret password cisco
```

```
Switch # wr mem Switch # copy running-config starting-config
```
