I will study Materials Science and Engineering in the university of Illinois at Urbana - Champaign. 2) What is your major? In what aspect of your major will you study? My current major is Chemistry, and my present specific field of study is Material Chemistry, which is also a branch of Materials Science. Material chemistry focuses on finding some new chemical synthesis methods and the relationship between the methods and the property of the materials. what is your future specific major? Well, materials science has a lot of branches, I'm very interested in my current research area, and will probably continue with it after I go to UIUC. 3) What will you do in USA? I will study for my Ph.D. degree in Materials Science and engineering in the University of Illinois at Urbana Champaign. It may take me 5 to 7 years, then I will come back to china. why will you finished you degree in five years? Usually, for Ph.D. of engineering in UIUC, it will take us 7 years to finish our study. But a schoolmate of mine who is now studying in UIUC told me that if we work hard enough, we can finished our courses and research project in five years. I hope I can finished my graduates study and get the degree in five years since I want to come back earlier to assist my father . he is not young and does need me to help him with his business as soon as possible. why will you want to finish you degree in five years? If I can finish my graduate study in five years, I will come back at a earlier

time to carry on my father ' s factory. anyway, my father is getting old, and he does need me to help him with his business as soon as possible.4) Are you going to study in USA?Yes. I will study for my Ph.D. degree in Material Science and Engineering in UIUC. I plan to finish my study in about 5-7 years and then come back to china.5) When/w[1] [2] 下一页 100Test 下载频道开通 , 各类考试题目 直接下载。 详细请访问 www.100test.com
