Happy to share my experience as following: I can measure the difficulty of all five exams with learning period, as following: No ITEMS period pass score/my score/total Payment 1 IZO-023: 24 days 42/42/60 60\$ 2 IZO-025: 17 days 42/44/60 290RMB 3 IZO-026: 11 days 41/42/57 290RMB 4 IZO-024: 20 days 42/44/57 600RMB 5 IZO-001: 7 days 39/53/57 600RMB -- 023 is the hardest, i just pass the exam, too dangerous! -- 024 is hard to learn, and easier to exam. Too many virture table and tuning skill to understand. Some table have taken me 5 times to learn. So boring and detail! -- 025 i prepared sufficiently, go through the experiment with 2~3 times(Just following the text book, not the experiment at the end of book). Although the score is bad, i have learned the backup and recovery skill yet. -- 026: some one said it is easy, but not to me. Becacuse not succefully going thought the experiment following the book, i lost a lot of questions about them at the end of serval paragraphs. My lucky has override my shortage, if i lose the exam,, nightmare! So,Be careful! -- 001: It is the most easy one, even easier than 029 of MCSD. If you have done STS for 2 times, you can pass it easily. Saving the easiest for last, Best choise of course! For the payment, you can ask for paying with US\$60 without any off. I am lucky to attend the hot test in shanghai on Sept. 26~27. So the

payment of my two exam is 290RMB, so great! Although Oracle sales the exam with 542 RMB now in Beijing, I am in Shanghai, and have to pay some additional fee for commission charge and courier fee, therefore I paid 600RMB for the last two exams. Thank you for your patient to look! 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
