happened on July 28, 1976 in Tangshan, China. 250,000 persons died in it. It also cut off electricity and water supply, many houses caught fire and a great many people lost their homes (become homeless). We can not stop it but we can do something to avoid suffering a great loss again. We cant build houses along the lines where earths two of the plates join together. We must build them on rock not on sand. And the buildings have to be made as strong as possible.

14. When did the earthquake happened in Tangshan? June 8, 1967. July 28, 1976. July 20, 1978.

15. How many people died in the earthquake? 350,000. 400,000. 250,000.

16. Which of the following is not true? We can stop earthquake. We can avoid suffering such a great loss again. We can not stop earthquake.

17. Where should we build the houses? Along the lines where two plates join together. On sand. On rock.

A friend of mine, while visiting his mother in Florida, took her to a shoe store to buy a new pair of shoes. While she was trying on different styles, my friend took the manager aside. "When she picks out a pair that she likes," he said, "just tell her that the price is 12 dollars. Ill pay the regular price, whatever it is." The following week, my friend was walking by the shoe store and the manager recognized him and called him in. "Whats the problem?" asked my friend as he entered the store. "Wasnt my check any good?" "Thats not it," answered the manager. "The problem is that your mother is

bringing all her friends in for those 12-dollar shoes!" 18. Who paid for the new pair of shoes? The manager. My mother. My friend. 19. Why did the mother bring all her friends to the shoe store? To complain about the price of the shoes. To look at the style of shoes. To buy more shoes. 20. How much does he pay for a pair of shoes actually? More than 12 dollars. Just 12 dollars. Less than 12 dollars. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
