Replace Teachers in English Teaching? 1. 计算机及多媒体技术在大学英语课堂上使用越来越广泛。 2. 老师和计算机相比的好处。 3. 计算机是否能在将来取代老师?为什么? Nowadays

computer-aided instruction is getting more and more popular on the campus throughout the world, especially in teaching English. More and more students tend to learn English independently with the help of multimedia learning software. They claim that they have more freedom of learning whatever they like at their own pace, with both ease and care. What ' s more, computer-aided instruction is an original way of learning, which can arouse students ' interest.

However some people believe that teachers can better help students learn knowledge and acquire skills. They argue that, for one thing, students cannot talk to machines. It goes without saying that to learn English better, students should talk to teachers and get in touch with them. For another, computers cannot supervise students, thus some students spend the precious time not on English, but on net chatting or browsing porn websites. As far as I am concerned, computers cannot replace teachers in English teaching because students need to contact human beings, not machines. At the same time, they should try their best to gain more from computer-assisted programs. By combining the two methods, students can learn English better.

Writing 7 漫画描述及分析 Our Right Attitudes Toward Animals

Your essay should meet the requirements below: 1) Describe the cartoon and deduce the purpose of the drawer of the cartoon. 2) State the negative effects of eating wild animals. and 3) Give your suggestion as to how to solve the problem. As is depicted in the cartoon, both the cat and snake are on the table, with tears in their eyes, waiting to be eaten by humans. Through this picture, the drawer condemns the eating of wild animals. Eating wild animals gives rise to a lot of negative effects. In the first place, as many wild animals carry parasites, when we eat them, the parasites enter our bodies, thus causing a lot of illnesses. In the second place, since animals are an indispensable part of our environment, the extinction of some animals may disturb the natural balance. Last but not least, eating wild animals is cruel. Since eating animals causes so many harms, we should work together to put an end to the problem. On the one hand, the government should make stricter laws to prohibit people from eating wild animals. On the other hand, all the people should realize the harms of eating wild animals and refrain from doing so.

Writing 8 问题解决 How Can Laid-off Workers Find New Jobs? 1. 很多下岗工人很难找到新的工作。 2. 如何帮助他们。 The market economy has brought China both benefits and headaches, one of which is the problem of finding new jobs for laid-off workers. There is no denying that serious social problems will arise unless this problem is properly solved. As a result, it is essential to explore ways to get laid-off workers back to work. Serious as the problem seems, we can find some solutions to it. To begin with, priority should be given to the expansion of tertiary industry(

第三产业) because tertiary industry can create a great number of positions with few restrictions on age, education, skill, etc. Also, little capital is needed to set up enterprises in this field. In addition, the laid-off workers have to update their skills to meet the demands of the society, just as the old saying goes, “ God helps those who help themselves. ” Last but not least, they should stop relying on the state and throw away any worries about their “ face ” while doing “ low ” jobs such as washing dishes at restaurants or sending newspapers to households. Once the habit of dependency is cracked, then the country can make other policy changes aimed at improving their living standards.

Writing 10 记叙 议论 Directions: For this part, you are allowed 30 minutes

to write a composition on the title Immoral Behavior in Public according to the following OUTLINE given in Chinese. Your composition should be no fewer than 120 words. 1. 我们经常在公共场合见到各种不道德的行为，叙述你的一次相关经历。 2. 这些不文明的行为会有哪些影响。 3. 我们应该怎样改善这种现象。

Immoral Behavior in Public To witness immoral behavior in public, one need only visit the Beijing subway. I still remember the first time I took the Beijing subway. It was an early morning. I was in a hurry to go to school. When I was trying to get a ticket, I found a lot of people waiting in front of me, but nobody was in the line.

Immoral behaviors in public cause a series of problems. One of the most serious ones is that it may exert a negative impact on our sense of social responsibility. We will keep ignoring other people ' s rights and feelings, and in turn, we too will be disrespected in some day.

Another harm of immoral behaviors is that it is a hindrance to our economic development and poses a threat to our building a “ harmonious society ” . The improvement of this phenomenon is certainly not easy. With an eye on practical implementation and cost effectiveness, I propose that society make it clear in every way that people who fail to respect the common good will be seriously punished. Stricter policies for this should be made to correct this phenomenon as soon as possible.
