cycles, a magazine reported some years before. Police records that were studied 1._____ for five years from over 2400 cities and towns show a surprised link between changes in the season and 2._____ crime patterns. The pattern of crime has varied very little over a long period of years. Murder reaches its high during July and August, as does rape and other violent 3._____ attacks. Murder, however, is more than seasonal: it is a 4._____ weekend crime. It is also a hightime crime: 62 percent of members are committed between 6 p.m. and 6 a.m. Unlike the summer high in crimes of bodily harm, burglary has a different cycle. You are most likely to being robbed between 6 p.m. and 2 a.m. on a Saturday 5._____ night in December, January, or February. The most uncriminal month of all? May--except for one strange statistic. More dog bites are reported in this month than in an other month of the year. 6._____ Apparent our intellectual seasonal cycles are 7._____ completely different from our criminal tendencies. professor Huntington, of the Foundation for the Study of Cycles, made extensive studies to discover the seasons when people read serious books, attend scientific meetings, make the highest scores on examinations, and to propose the most changes to patents. In all 8._____ instances, he found a spring peak and an autumn peak separated by a summer low. On other hand, Professor

9._____ huntintons studies indicated that June is the peak month for suicides and admissions in mental hospitals.

10._____ June is also a peak month for marriages!参考答案 1.

before ago 2. surprised surprising 3. does do 4. however

moreover 5. being be 6. an any 7. apparent apparently 8.
