Text 1 A class action lawsuit has been filed against a prominent Toronto doctor , by patients who allege he injected a banned substance into

their faces for cosmetic purposes. The doctor had already been investigated more than three years ago for using the liquid silicone , a product not authorized for use in Canada. Some patients say they are now suffering health problems and think the liquid silicone may be to blame. One of those patients is Anna Barbiero. She says her Toronto dermatologist told her he was using liquid silicone to smooth out wrinkles. What she says he didnt tell her is that it isnt approved for use in Canada. “ I didnt know what liquid silicone was and he just called it ‘ liquid gold. ” Barbiero remembers. After her last treatment , Anna discovered Dr. Sheldon Pollack had been ordered to stop using the silicone two years earlier by Health Canada. Experts say silicone can migrate through the body , and cause inflammation and deformities. “ My upper lip is always numb and it burns , ” Barbiero says. Barbiero is spearheading a lawsuit against the doctor , who her lawyer thinks might involve up to 100 patients injected with the same material. “ The fact , a physician of his stature would use an unauthorized product on a patient because he thought it was okay , is really very disturbing , ” says lawyer Douglas Elliott. Ontarios College of Physicians and Surgeons ( OCPS ) is also investigating Dr. Pollack to see if , in fact , he continued to use the silicone after agreeing to stop and whether he wrote in patient records that he used another legal product when he had used silicone. However , in a letter to the College , Dr. Pollack wrote that he had always told patients that the silicone was not approved for sale in Canada , and had warned them of the risks. And in Barbieros case , “ ..... at the time of her first visit , prior

to her ever receiving IGLS treatment , I specifically informed her that the material was not approved for sale in Canada by the Health Protection Branch and that I did receive the material from outside the country ..... I would like to emphasize that , as is evident on Ms. Barbieros chart , I drew a specific diagram on the chart which I carefully discussed with and explained to Ms. Barbiero as I do with every other patient to explain the nature and likelihood of possible complications and the reasons and consequences of those possible complications. ” Dr. Pollack declined to speak to CTV News , or to have his lawyer discuss the case. None of the allegations have been proven in court. But the case raises questions about the ability of governing bodies to monitor doctors. “ Theres a larger message and that is : buyer beware , ” says Nancy Neilsen of Cosmetic Surgery Canada. “ Its incumbent on consumers to do their research. ”
