

EJB3.0中查询boolean值的方法 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/461/2021_2022_EJB30_E4_B8_AD_E6_c104_461597.htm 我定义了一个类

：HibernateBooleanDemo只有两个属性：id和enabled，分别是String和boolean类型，分别对应表中的id和isEnabled列。并编写了相应的get和set方法和DAO类。但是如下代码很奇怪

```
：String hql = "from HibernateBooleanDemo where  
isEnabled=false".Session s =
```

```
HibernateSessionFactory.getSession().Transaction t =
```

```
s.beginTransaction().Query q = s.createQuery(hql).List list =
```

```
q.list().System.out.println(list.size()).System.out.println(((HibernateBooleanDemo)list.get(0)).isEnabled()).t.commit().HibernateSessionFactory.closeSession().在上面的查询语句中写列名
```

即isEnabled时可以正常运行。但是写属性enabled时，却抛出异常，大概意思是说不能解析该属性。一直不明白是什么原因。请大家指点【AmethystWish】：若"from

HibernateBooleanDemo where isEnabled=false".写为"from

HibernateBooleanDemo where enabled=false".错误如下：aused

by: com.mysql.jdbc.exceptions.MySQLSyntaxErrorException:

Unknown column 'enabled' in 'where clause'

【liandti】 :from HibernateBooleanDemo h where h.enabled=false
如果用属性就加别名 【AmethystWish】 :查询字符串改为
: "from HibernateBooleanDemo h where h.enabled=false".之后运行，结果如下：Exception in thread "main"

org.hibernate.QueryException: could not resolve property: enabled
of: org.acman.demo.HibernateBooleanDemo [from
org.acman.demo.HibernateBooleanDemo h where
h.enabled=false]at
