Part III  
Reading Comprehension (50 minutes, 30 points)  
Directions: There are six passages in this part. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A, B, C and D. You should decide on the best choice and mark the corresponding letter on the ANSWER SHEET with a single line through the center.

Passage One “ High tech ” and “ state of the art ” are two expressions that describe very modern technology. High tech is just a shorter way of saying high technology. And high technology describes any invention, system or device that uses the newest ideas or discoveries of science and engineering. What is high tech? A computer is high tech. so is a communications satellite. A modern manufacturing system is surely high tech. High tech became a popular expression in the United States during the early 1980s. Because of improvements in technology, people could buy many new kinds products in American stores, such as home computers, microwave ovens, etc. “ State of the art ” is something that is as modern as possible. It is a product that is based on the very latest methods and technology. Something that is “ state of the art ” is the newest possible design or product of a business or industry. A state of the art television set. For example, uses the most modern electronic design and parts. It is the best that one can buy. “ State of the art ” is not a new expression. Engineers have used it for years, to describe the best and most modern way of doing something. Millions of Americans began to use the expression in the late 1970s. The reason was the computer revolution. Every computer company

claimed that its computers were “ state of the art ” .Computer technology changed so fast that a state of the art computer today might be old tomorrow. The expression “ state of the art ” became as common and popular as computers themselves. Now all kinds of products are said to be “ state of the art ” .36. What is the purpose of the passage?A. To tell how “ high tech ” and “ state of the art ” have developed.B. To give examples of high tech.C. To tell what “ high tech ” and “ state of the art ” are.D. To describe very modern technology.37. What can we infer from the passage?A. American stores could provide new kinds of products to the people.B. High tech describes a technology that is not traditional.C. “ State of the art ” is not as popular as “ high tech ” .D. A wooden plough pulled by oxen is “ state of the art ” .38. All the following examples are high tech EXCEPT \_\_\_\_\_.A. a microwave oven B. a home computerC. a hand pump D. a satellite39. Which of the following statements is NOT true?A. Since the computer revolution, the expression “ state of the art ” has become popular.B. “ state of the art ” means something that is the best one can buy.C. With the rapid development of computer technology, a state of the art computer may easily become out of date.D. All kinds of products are “ state of the art ” nowadays.40. The best title of the passage is \_\_\_\_\_.A. Computer TechnologyB. High Tech and State of the ArtC. Most Advanced TechnologyD. Two New Expressions

Passage Two  
In the Arctic Circle, it is not that Eskimos lack ability or industry, but the surroundings restrict constructive effort to the barest necessities of existence. This retards progress to higher

development. Agriculture is impossible all along the thousands of miles of the north shore. The only wood is such as drifts in. other than this driftwood, the only available building materials are snow, ice, stone, and bones of animals. All of these have been used for habitations and storage, places, differing in various tribes according to the requirements and skill of the workers. The lack of necessary timbers to build walls and span wide spaces is probably one reason why they construct their houses at least partly beneath the surface of the ground. This device also makes the houses more impervious (不能渗透的) to the cold. Most of us are inclined to think that the Eskimo lives always in an igloo or snow house. This is not entirely true. After the long cold winter, the family is very likely to move, when the weather permits, into a tent of sealskin. The actual construction of such a tent is similar to that used by other, more southerly tribes and will be described later. The snow house, however, is an interesting and unique habitation. Our summer campers will not build, with snow, but the delicate art is worth recording and some of our winter camps mountains might try to make snow

houses.41. Eskimos' efforts to build houses \_\_\_\_\_.A. result in various buildingB. are limited by a hostile environmentC. are restricted by their abilityD. retard progress to higher development42.

Which of the following about the construction of houses is true?A. Building materials differ from tribe to tribe.B. Building materials are the same for all the houses.C. Building materials are 0selected according to weather.D. Building materials are decided by skilled workers.43. Why do Eskimos build their houses partly under the

ground?A. They like to live under the ground.B. They are short of essential materials for walls and roofs.C. They want their houses less affected by the cold.D. Both B and C.44. In the long winter Eskimos commonly live in \_\_\_\_\_.

A. a snow house B. a stone house C. a storage place D. a tent of sealskin45. What does the author think of snow houses?A. Interesting B. Artistic C. Unique D. All of the above

Passage ThreeIf Europeans thought a drought was something that happened only in Africa, they know better now. After four years of below-normal rainfall (in some cases only 10 percent of the annual average), vast areas of France, Spain, Portugal, Belgium and Ireland are dry and barren. Water is so low in the canals of northern France that waterway traffic is forbidden except on weekends. Oyster growers in Brittany report a 30 percent drop in production because of the loss of fresh water in local rivers necessary for oyster breeding. In southeastern England, the rolling green hills of Kent have turned so brown that officials have been weighing plans to pipe in water from Wales. In Portugal, farmers in southern Alentejo region have held prayer meetings for rain-so far, in vain.Governments in drought-plagued countries are taking drastic measures. Authorities in hard-hit areas of France have banned washing cars and watering lawns. In Britain, water will soon be metered like gas and electricity.

“ The English have always taken water for granted ” , says Graham Warren, a spokesman of Britain ’ s National Rivers Authority.

“ Now they ’ re putting a price on it. ” Even a sudden end to the drought would not end the misery in some areas. It will take several years of unusually heavy winter rain, the experts say, just to bring

existing water reserves up to their normal levels.46. What does the author mean by saying “ they know better now ” ?A. They know more about the causes.B. They have a better understanding of the drought in Africa.C. They have realized that the drought in Europe is the most serious one.D. They have realized that droughts hit not only Africa but also Europe.47. The drought in Europe has brought about all the following problems EXCEPT \_\_\_\_\_.A. below-normal rainfallB. difficult navigationC. a sharp drop in oyster harvestD. bone-dry hills48. The British government intends to \_\_\_\_\_.A. forbid the car-washing serviceB. increase the price of the water usedC. end the misery caused by the droughtD. pipe in water49. Which of the following statements is true according to the passage?A. Germany is the only country free from the drought.B. Water reserves are at their lowest level in years due to the drought.C. The drought is more serious in Britain than in France.D. Europe will not have heavy rain until several years later.50. Which of the following is the most appropriate title for the passage?A. Europe in Misery B. Drought Attacks EuropeC. Be Economical with WaterD. Europe, a Would-be Africa

Passage Four

In some ways the employment interview is like a persuasive speech because the applicant (interviewee) seeks to persuade the employer (interviewer) to employ him or her. A job applicant has the responsibility for ascertaining certain types of information prior to the interview. First, the applicant knows what kind of job he wants and how that job relates to his career objective. It is important that the applicant be able state his reasons for wishing to work for a particular company.

Second, the applicant should seek as much information as possible concerning the company. Relevant information from the applicant to locate includes such items as the location of the home and regional offices, the financial status of the company, plans for expansion, and company philosophy, information about most major corporations available in reference books and periodicals. After gathering information concerning the company, the applicant is ready for the interview. The interviewer's first impression comes from the interviewee's appearance. For most interviews, appropriate dress for men is a conservative (保守的) dark colored suit with a long sleeve white or light blue shirt. For women a conservative, tailored suit or dress is appropriate. Both men and women should have neat, conservative length of hair. Although hairstyle and dress are matters of personal taste, many personnel directors form initial impressions from these characteristics. For example, one recent college graduate, who felt himself qualified, interviewed for a public relations job. However, the personnel manager considered this young man's long hair, sloppy dress, and overly casual manner unsuited for this particular position.

Passage Six  
A person may have an idea about himself that will

prevent him from doing good work. He may have the idea that he is not capable of it. A child may think he is stupid because he does not understand how to make the most of his mental faculties, or he may accept another person's mistake estimate of his ability. Older people may be handicapped by the mistaken belief that they are incapable of learning anything new because of their age. A person who believes that he is incapable will not make a real effort, because he feels that it would be useless. He won't go at a job with the confidence necessary for success. He is therefore likely to fail, and the failure will strengthen his belief in his incompetence. Alfred Adler, a famous doctor, had an experience which illustrates this. When he was a small boy he got off to a poor start in arithmetic. His teacher got the idea that he had no ability in arithmetic and told his parents what she thought in order that they would not expect too much of him. In this way, they too developed the idea, "Isn't it too bad that Alfred can't do arithmetic?" He accepted their mistaken estimate of his ability, felt that it was useless to try, and was very poor at arithmetic, just as they expected. One day Adler succeeded in solving a problem which none of the other students had been able to solve. This gave him confidence. He rejected the idea that he couldn't do arithmetic and was determined to show them that he could. His new found confidence stimulated him to go at arithmetic problems with a new spirit. He now worked with interest, determination, and purpose, and he soon became extraordinarily good at arithmetic. This experience made him realize that many people have more ability than they think they have, and that lack of

success is an often the result of lack of knowledge of how to apply one ' s ability, lack of confidence, and lack of determination as it the result of lack ability.61. According to the passage, which statement is NOT true?A. A child may accept another person ' s underestimate of his ability.B. He may think that he is too young to make the most of his mental faculties.C. A person may have the idea that he is incapable of doing good work.D. Some old people don ' t believe that they are capable of learning anything new.62. A person who believes in his incompetence will \_\_\_\_\_.A. make no real effortsB. fail to go at a jobC. show a complete lack of confidence D. all of the above63. As a boy, Alfred Adler was poor at arithmetic because \_\_\_\_\_.A he lost his self-confidenceB. he was mentally retarded C. his teacher had no confidence in herselfD. his parents expected too much of him64. Which of the following is the most important factor to Adler ' s success?A. Spirit and experienceB. InterestC. Confidence and determinationD. Purpose and knowledge65. Adler ' s experience made him realize that \_\_\_\_\_.A. people are not as capable as they thinkB. people can be more capable than they thinkC. lack of knowledge leads to failureD. lack of ability results in lack of determination
