repeat it for you. But using a computer can solve this question without any difficulty. In addition, studying at home can save you a lot of time. An example that accompanies this reason is that, if you study at school, you must spend a lot of time on traffic. (An example to support this reason is that, if you study at school, you must spend a lot of time in traffic.) But studying at home will be out of this question. There is a good example. (For example,) (3) If you wanted to study at midnight, can you do it at school? (if you wanted to study at midnight, could you do it in school?) But at home we can do it by computer. You can study at any time you like. (“ at any time you like ”) (C) In conclusion. It must be explained that these reasons sometimes intertwine to form an organic whole and thus become more persuasive than any one of them. (In conclusion, these reasons sometimes intertwine together to form a whole argument and thus become more persuasive than each one individually.) Then any thinking person must agree that studying at home using computers is better. (As such, any intelligent person would surely agree that studying at home using a computer is better.) 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
