35 million Africans are in danger of contracting trypanosomiasis, or "African sleeping sickness," a parasitic disease spread by the bites of tsetse flies.

(A) are in danger of contracting (习语) (B) are in danger to contract (C) have a danger of contracting (D) are

endangered by contraction (E) have a danger that they will contract

1. 习语: be in danger of sth. 一级排除B,D,E 2. 时态: 二级排

除C 现在完成时没有理由，而且从逻辑意思上看 have a danger

也不对。 the passive construction in D would be unnecessarily

wordy and also imprecise, because it is the disease more than the act

of contracting it that poses the danger.(意思表达的细微差别) è be

endangered by的意思也有区别, 往往表示环境/野生动物
