To what extent do you agree or disagree? Nowadays, plenty of employees who are more than 55 years old must retire because of company policy. therefore, many people think that the development of a company cannot be separated from the number of young employees. The above point is certainly true. this essay will outline three reasons. The main reason is that plenty of young employees mean that the company is infused with lots of young blood. With the development of technology, more and more new technological products have been developed. The new generation masters advanced technology and have the energy to exploit. They have learned lots of knowledge in the university. therefore it is definitely useful for the development of companies. Another reason is that old employees cannot adapt themselves to the rapid pace. Old employees find it difficult to learn new things rapidly. With their limited physical strength, they are not capable of heavy manual work. So old employees are not a patch on young employees, it means not only intellect but also physical strength. Last but not the least reason is that old employees have already worked for more than half of their lifetime, so they should retire to enjoy life. The old employees have already paid out too much in order to look after their families and careers. So they should pursue their hobbies. In conclusion, old

employees shouldn't continue working for themselves. Moreover, advancement of society needs a new generation. 100Test 下载频道 开通，各类考试题目直接下载。详细请访问 www.100test.com
