Personally speaking, I prefer living off campus like rent an apartment. First, because I am really crazy about listening to music loud, so I don't want to bother others. And also, I snore very heavily at night when I am sleeping. You see, a person like me has no choice but to live off campus. Second, I want to have my own privacy. I can't imagine that 5 or 6 people stick together. I don't want my roommates to know whom I am calling , dating. what books I am reading or what movies I am watching. I would rather die if I have to live on campus ”
