OneM: Good morning, madam! W: Good morning, doctor! M: Is there anything I can do for you? You look rather pale. W: I had a horrible sleep last night! M: What is exactly going on with you? W: Well, everyday I feel very tired in the day time. I even nod off while at work. It ' s really hard for me to focus my attention on work. But at night, I couldn ' t fall asleep at all. M: I see. Do you take sleeping pills to help you fall asleep? W: Yes, at the very beginning, I tried to take some pills. But it seems the pills won ' t work on me anymore. M: You should stop taking the pills immediately. Why didn ' t you come here earlier? It is very risky for you take pills by yourself. W: I ' m up to my neck in work. But just recently, I feel I was no longer able to concentrate on my work. M: If you continue to treat yourself like that, I ' m afraid the situation will become a lot worse. W: What should I do, doctor? M: I think you ' d better leave work for two weeks and have a good rest. I know it must be very hard for you to do this, but there is no other choice. W: I really can ' t take days off from work. How about taking pills? Will it help? M: To tell the truth, your situation now is very serious. Even if you leave work and rest at home, it will take a long time for you to recover. By taking pills only, there might be other risks for your health. You ' d better consider this seriously! W: Err... You are right, doctor. Thanks for reminding me of that! After all, it is no use crying over split milk. Q1. What problem
