Questions 8-12 . Read this proposal about the CPT Word Processor.

. Choose the best sentence from the list A-I to fill each of the blanks. .

For each blank ( 8 -12) mark one letter(A -I)on your Answer Sheet. .

Do not mark any letter twice. . One answer has been given as an

example. 15 June 1993 Ms. Martha Weston Word Processing

Supervisor ABC Company Post Office Box 1072 28 Kings Street

London Dear Ms. Weston. Performance of the Cpt Equipment Im

Pleased to tell you about our experience with the CPT Word

Processor as you requested recently.....example ..... I

assume you have looked at several machines and have narrowed

down your choices. Here are my observations. An approach to

adopting word processors Eighteen months ago we adopted CPT

equipment on limited scale with the idea in mind that we could

gradually get rid of electric typewriters as we became familiar with the

word processor. .... 8 .....The stations are actually in pairs so

each pair can share a common printer..... 9..... We use the

equipment as dedicated word processors, although we do have the

ability to link up with our computer installation. The step-at-a-time

development of our word-processing center has, we think, saved us

money and training time. ....10..... Performance In terms of

performance , the CPT equipment is excellent. ....11.....

...Moreover our service contract and warranty have covered all

maintenance costs. We have software packages that check spelling and signal when a mistake occurs. .... 12 .... Using both printers , we recently prepared 1200 individually typed form letter mailings a under four hours. We have no complaint about our preparation of executive reports. Example: I A So it works very well and has so many different functions. B Also it has reduced the confusion that exists about buying software packages . C The train stops at each station for only fifteen minutes. D We began with two work stations and now have four. E Our routine letters are prepared from disc-stored masters. F The Rotary W printer with a speed of 45 characters a second can easily handle two input stations. G In contrast ,its size and weight are ideal for carrying. H We have not yet experienced mechanical problems so far. I We are pleased with its performance and multi-functions. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
