within the core of the Earth, like the mantle that surrounds the core, has been deduced from the orbital behavior of the Earth and the motions of satellites controlled by the gravity of the Earth. (A) the mantle that surrounds the core (B) that within the mantle surrounding the core (C) that of the mantle surrounding the core (D) the mantle the core surrounds (E) the distribution of mass within the mantle that surrounds the core 92. The supply of oil being finite has become an economical and political consideration of the first magnitude for all modern industrial nations. (A) The supply of oil being finite has become an economical (B) The finite supply of oil has become an economical (C) That the supply of oil is finite has become an economical (D) The supply of oil being finite has become an economic (E) That the supply of oil is finite has become an economic 93. The study undertaken by Department of the Interior will involve examination and tagging of the California condor in order to obtain information about their daily movements, foraging habits, and sites where they nest. (A) their daily movements, foraging habits, and sites where they nest (B) their daily movements, foraging habits, and their nesting sites (C) its daily movements, foraging habits, and nesting sites (D) its daily movements, foraging habits, and about nesting sites (E) daily movements, foraging habits, and sites in which there are nests 94. Contrary to earlier conjectures, it may be

that increased atmospheric carbon dioxide as a result of burning fossil fuels would cool the globe by reducing the amount of solar energy absorbed by snow. (A) increased atmospheric carbon dioxide as a result of burning (B) increased atmospheric carbon dioxide resulting from the combustion of (C) increasing carbon dioxide in the atmosphere resulting from the combustion of (D) carbon dioxide in the atmosphere that increase from burning (E) atmospheric carbon dioxide that increased from burning⁹⁵. The five hundred largest manufacturing firms in the United States produce goods that are worth almost as much as that of the four hundred thousand firms that remain. (A) that are worth almost as much as that of the four hundred thousand firms that remain (B) of a worth that is almost as much as that of the four hundred thousand firms that remain (C) almost as much in worth as those of the remaining four hundred thousand firms (D) almost as much in worth as that of the remaining four hundred thousand firms (E) worth almost as much as those of the remaining four hundred thousand firms⁹⁶. There is substantial evidence that certain forms of solar energy either now or within a few years will be economically competitive with conventional sources of heat and power. (A) either now or within a few years will be economically competitive with conventional sources of heat and power (B) will either be economically competitive with conventional sources of heat and power within a few years or are so now (C) will be economically competitive with conventional sources of heat and power either now or within a few years (D) either are now economically competitive with conventional sources of heat and

power or will be so within a few years (E) are either now or will be within a few years economically competitive with conventional sources of heat and power⁹⁷. Unlike that of human beings, who waste away when they go without food for long periods, hibernating bears exist for months on only their excess fat. (A) Unlike that of human beings, who waste away when they go (B) Unlike human beings, who waste away when they go (C) Unlike human beings, wasting away when going (D) Dissimilar to human beings, wasting away when (E) Lacking similarity to human beings, who waste away when⁹⁸. The science of economics, which for four decades was dominated by Keynesians, who at first stressed the government 's role in stimulating the economy, but who were ultimately led away from solutions based on government intervention. (A) economics, which for four decades was (B) economics that was to be (C) economics, one which has, for four decades, been (D) economics is one that for four decades has been (E) economics, for four decades, is one that was⁹⁹. The use of chemical pesticides in this country is equally extensive or more so than ten years ago. (A) equally extensive or more so than ten years ago (B) equal to or more extensive than ten years ago (C) as extensive as ten years ago or more (D) equal to, if not more, than ten years ago (E) as extensive as it was ten years ago, if not more so¹⁰⁰. In her recently published study, Rubin asserts that most women do not suffer from the “ empty nest syndrome ” . they are, in fact, relieved when their children depart. (A) they are, in fact, relieved when their children depart (B) and they are, in fact, relieved when their children departed (C) they are, in fact, relieved when their

children departed(D) in fact, they are relieved when their children departed (E) they are relieved at the departure of the children, in fact¹⁰¹. The speculative fever of the Roaring Twenties infected rich and poor alike. vast quantities of people were dangerously overextended, credit was absurdly easy to obtain, and most brokerage houses required only ten percent cash for stocks bought on “ margin. ” (A) rich and poor alike. vast quantities of people were dangerously overextended(B) both rich and poor alike. large amounts of people dangerously overextended themselves(C) rich and poor alike. great numbers of people were dangerously overextended(D) both rich and poor alike. vast amounts of people dangerously overextended themselves (E) both rich and poor. great quantities of people were dangerously overextended¹⁰². The exhibition of art from Nubians, the site of a Black civilization that goes back to the fourth millennium B.C., makes clear the Nubians combined artistic elements from Egypt to that of sub-Saharan Africa.(A) the Nubians combined artistic elements from Egypt to that(B) that the Nubians combined artistic elements from Egypt to that(C) the Nubians combined artistic elements from Egypt with that(D) that the Nubians combined artistic elements from Egypt with those (E) that Nubians combined artistic elements from Egypt and those¹⁰³. Idioglossia is a phenomenon, incompletely understood at best, where two persons develop a unique and private language with highly original vocabulary and syntax.(A) where two persons develop a unique and private language with(B) when two persons develop a unique and private language having(C) in which two

persons have unique and private language development with(D)
having two persons who develop a unique and private language that
has (E) in which two persons develop a unique and private language
with104. For some birds the sense of smell appears to play a role in
navigation, since pigeons with surgically removed olfactory nerves
were found to have increased difficulties in homing.(A) were found
to have increased difficulties(B) have been found to have increased
difficulty(C) were found to have increasing difficulty(D) had been
found to have increased difficulties (E) have been found to have
increasing difficulties105. Distinguished architecture requires the
expenditure of large sums of money, even if it is by no means certain
that the expenditure of large sums of money produce distinguished
architecture.(A) even if it is by no means certain that the expenditure
of large sums of money produce(B) even if it is by no means certain
that the expenditure of large sums of money will produce(C) even
though there is no certainty that the expenditure of money in large
sums produces(D) even though it is by no means certain that the
expenditure of large sums of money produces (E) though there is no
certainty as to the expenditure of money in large sums producing
