(earthquake) 话题，危机应对，大学校园暴力问题的思考，等。务必关注！！多年的教书心得：大学4级，6级英语作文，由于很多考生考试前很少去认真执著地分阶段地练习去写，而且更要命的是，很少在平时花大量的时间去背诵、默写有代表性的各种重要体裁的高分范文，以至于自己在考试规定的30分钟内就不能写出够字数的合格文章。很多同学一定会有这样的真实体会，大家面对4，6级作文不是不知道怎么用英文来写文章，而是连用自己的母语中文写出来都有极大的困难”，所以英语作文的训练，就应该从自己的中文逻辑思维开始训练起。对于有的写作基础特别不好的同学，你们也可以在考场上把中文想法翻译成为英文即可。Part I

模考参考范文：Studying Abroad
Recent years have witnessed a phenomenon that more and more students swarm into foreign countries to finish their education. They have not considered our

homeland as the unique place to enrich their knowledge any more. Instead, some excellent boys and girls whose financial condition is fine simultaneously began to pay their attention on some oversea prestigious colleges and institutions and dream to get degrees there. There are several reasons to cause this change. First of all, with the globalization and much more frequent communications with developed countries, most of the people in China get to realize the wide gaps in many fields, especially in science and technology, between China and western countries. They thirst for studying abroad to get ready better for the fierce competition in the job-hunting market. Moreover, the life in foreign countries is usually attractive to young people and studying abroad may satisfy their curiosity. Besides, the rapid development of our mother country and the remarkable growth in our income make going abroad to study available, which is almost impossible to average Chinese students in the past. The move-out of our students changes our society a lot. On one hand, being students in foreign universities will widen their view and offer them more possibility to get favorite jobs. And consequently their success will draw more latecomers to do the same thing. On the other hand, if the majority of them will not go back to China to work in the future, our fatherland will probably suffer a significant loss which may be difficult to be estimated by money.

Part I Writing (30minutes) 注意：此部分试题在答题卡1 上

。 Directions: For this part, you are allowed 30 minutes to write a short essay entitled The Declining Employment Rate of University Graduates You should write at least 150 words based on

the chart and outline given below:1. 近几年来大学毕业生就业率越来越低2. 产生这种现象的原因；3. 我们大学生应该怎么做？参考范文（仅供参考）：The Declining Employment Rate of University Graduates

The employment rate of university graduates is declining nowadays. Reading this chart, we can find that the employment graduates has declined gradually. It declined from 80 percent in 2002 to nearly 75 percent in 2004, and finally, the rate 0dropped to no more than 70 percent in 2006. Obviously, it is increasingly difficult for a university graduate to find a job today. The reasons for this are various. For one thing, the number of university graduates is increasing every year, while the job vacancies for them have not increased in accordance. For another, many graduates want to find a well-paid and comfortable job, which is always not practical. Finally, many employers think that the students who have just left from university are in lack of working experience, instead they are more willing to hire the experienced. Therefore, as university students, in order to find a job after graduation, we should be more practical, and not only learn as much knowledge as possible, but also take all kinds of opportunities to gain working experience. 100Test
