Thing? Failure is what often happens. It is everywhere in our life. Students may fail in exams, scientists may fail in their research work, and athletes may fail in competitions. Although failure happens to everyone, attitudes towards failure are various. Some people don ' t think their failure is a very important thing at all. So they pay no attention to it. As a result, they will have the same failure a period later. Some people think themselves are fools and lose their hearts in everything after they get a failure. Consequently, they spend their time and energy on useless things and they may really be fools as they have thought. Other people are quite different from the two kinds of people mentioned above. Instead of being distressed and lost, they draw a lesson from every failure and become more experienced. After hard work, they will be successful in the end. It is said that failure success. Success will be gained after times of failures so long as we are good at drawing lesson from our failures. In my opinion, failure is not a bad thing, the really bad thing is taking a failure as failure or even lose our heart after failure. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
