There ' s nothing like putting your favorite condiments on your hotdog and feeling the condensation on an ice-cold can of coke. And there ' s nothing like eavesdropping on the conversations. “ I like collecting old things, ” bragged a collector to his friend. “ I have a collection of belt buckles that were owned by a confederate General back in the days of the confederacy, 140 years ago, Some of these were actually worn to the conferences he had with the Union. I also own a piece of copper wire that was used 160 years ago as a conductor for the original Morse telegraph system. Copper wire was used because of its great conductivity. I

even have a wooden mallet that was used by a judge over 300 years ago during condemnation proceedings in Salem. Imaging condemning someone for refusing to confess to witchcraft! Even a confession would result in condemnation! ” “ I ’ ve just conferred with the prosecutor and the judge on both of your cases, ” said a lawyer to his criminal client. “ It was a long meeting so I ’ m going to condense what we discussed into a few sentences. The prosecutor has concrete evidence that could put you in jail for two consecutive five-year terms. That ’ s a total of ten years. But if you plead guilty today, I ’ m confident that you ’ ll receive two concurrent five-year terms. That means you ’ ll be out of jail in five years. ” “ I can ’ t condone your cheating on the examination, ” said a father to his son. “ But I ’ m glad that you conduct yourself honestly next time. ” See how interesting lunchtime can be? 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
