The polluted water not only kills fish, it is also harmful to our health. Many people get sick because they drink the polluted water. In some rivers the water is so dirty that they can even kill plants. We should fight against the pollution. We should stop using harmful things. I wish it is not a dream that in the near future we can have clean rivers again. 百考试题编辑整理 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
