He specializes in the 50 m Pistol and 10 m Air Pistol events. Wang won his first Olympic medal in the Los Angeles games at the age of 23. After this, the Air Pistol event was added to the program, and this is where he has achieved his greatest accomplishments. He won the 1992 gold medal only days after a new medal in the 50 m event. His three attempts to repeat the victory have provided impressive results and very tight duels: In the 2004 competition, Wang scored 590 once more, but lost the Olympic record to Mikhail Nestruev (Russia) who achieved 591. However, Wang Yifu chased quickly and eventually won by a margin of 0.2 points to get his second Olympic gold. I like Wang Yifu, and I also like his great sprite.百考试题编辑整理 100Test 下载频道开通, 各类考试题目直接下载。详细请访问 www.100test.com
