Topic: Many important natural resources such as water, forests, oil, etc, are running out in the world today. What should we do to protect them? Give specific examples to support your idea about one kind of these resources. Write an essay within 300 words. 第三届全国大学生翻译大赛试题我要收藏

The lakes and everything affected by them, the heavy blanketing of winter snow, the following slow thaw and mild growing season in a pervasively moist atmosphere, seem integrally involved in what becomes now at the end of summer, the production of all of the delightful and delicious things of this world: from the fish and the fruit to the vast migrations of breeding water birds to the bees that pollinate the vineyards and the orchards--- their eerily acute sense of geometry and time translating into sweetness as it insistently flows forth throughout nature in this familiar yet rare landscape formed not long ago by huge bodies of sudden deep blue water, freshwater, the one thing needed to sustain, in all its wildness and diversity, life on this earth. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
