Taking pictures is fun. And taking good ones is easy if you follow a few simple rules. Before you snap a picture, think about it. Be sure you are close enough to your subject. A pretty face against a plain background, for instance, makes a good picture. But a distant figure lost among trees and clouds lacks interest. In a landscape scene, try to keep at least two-thirds of the picture below the line where the ground meets the sky. For a sky scene, keep at least two-thirds of the picture above that line. Study pictures in newspapers and books. Try to see why some are better than others. Use what you learn to improve your own pictures.
